The Cooling Advantage

With the ability to accommodate multiple fans, including **two 120mm or 140mm fans on top**, **three 120mm or two 140mm fans at the bottom**, and **a 120mm fan at the back**, the **Hussar Plus Black Gaming PC Case** ensures optimal ventilation to keep your gaming rig running cool. Its vertical airflow design allows for effective cooling throughout, and the bottom-up airflow efficiently dissipates internal heat. The bottom fan position directs a stream of cool air right toward your graphics card, maximizing cooling performance to its fullest potential. Elevate your gaming experience with the **Hussar Plus Black**, where airflow and performance converge for the ultimate gaming setup!

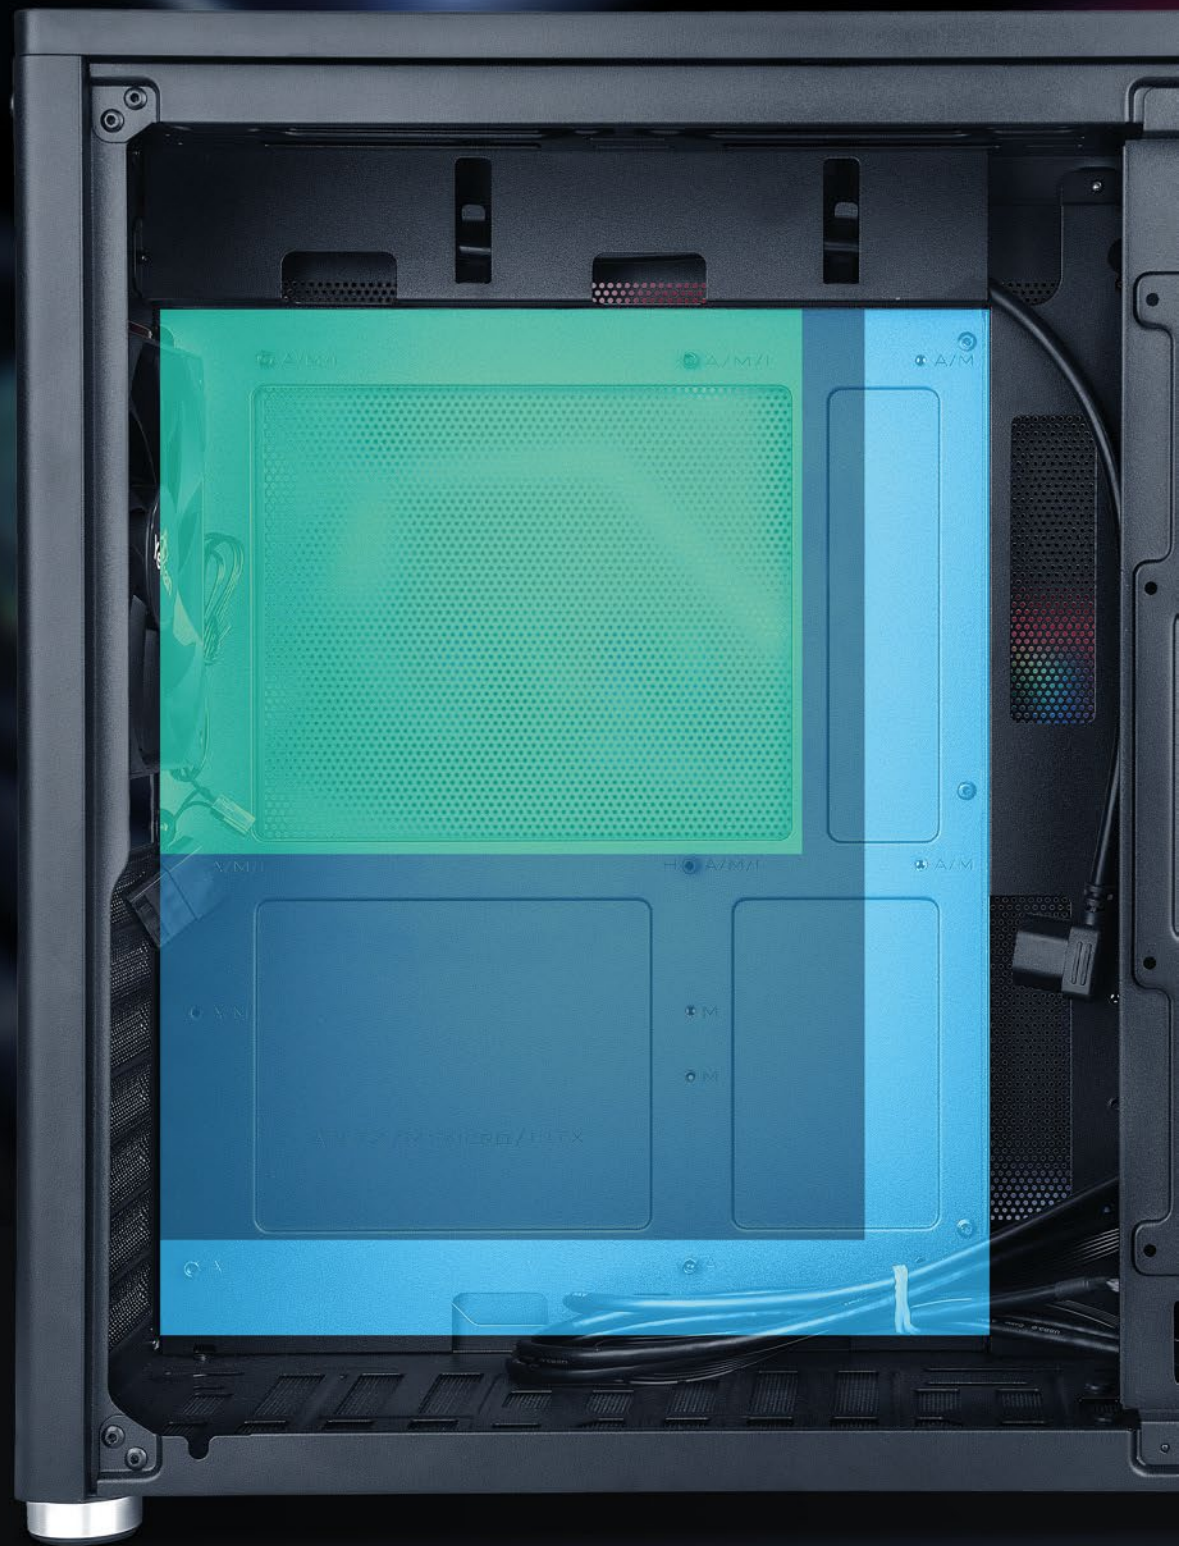

Peak Performance for Your Graphics Card

Designed to cater to the needs of avid gamers, the **Hussar Plus White Gaming PC Case** boasts a **GPU card length compatibility of 355mm**, this case ensures that you can house mainstream GPU cards effortlessly. The easy installation process, coupled with active cooling from strategically positioned fans and the bottom, guarantees that your graphics card remains at its peak performance

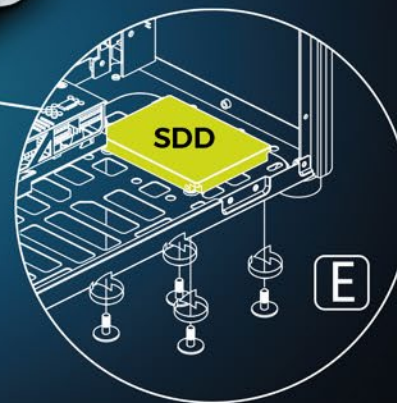

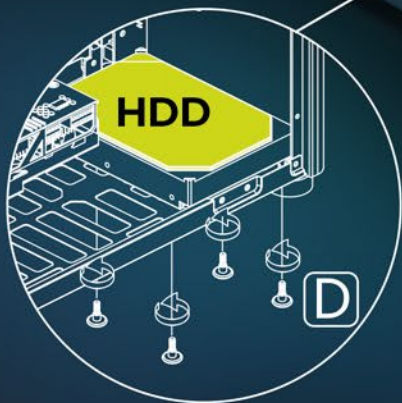

Tailor Your Gaming Rig with Ease

Experience unmatched versatility with the **Hussar Plus Black Gaming PC Case**, catering to the diverse needs of gamers. This case supports **ATX, Micro ATX, and Mini ITX motherboards**, offering the flexibility to build your gaming rig your way. With **CPU cooler height support of up to 168mm** and compatibility with **ATX PSUs**, your options for customizing your setup are virtually limitless. The modular design of the chassis motherboard ensures efficient cable management, maximizing the interior space for a clean and organized build. Optimize your gaming experience with this exceptional case that adapts to your unique component requirements!

Expand Your Gaming World

The **Hussar Plus Black Gaming PC Case** offers an extensive array of expansion possibilities tailored to the needs of gamers. **With 7 expansion slots**, you have the flexibility to accommodate multiple components and peripherals for a truly immersive gaming experience. Additionally, this case provides room for **3 to 4 2½" SSD slots and a hidden 3½" slot**, ensuring sufficient data storage space to support Home, Gaming, or Office PC Systems. Your storage needs are met, so you can focus on dominating your gaming sessions without any worries!

Power button

Combined audio (2 in 1)
