QUALITY AND PRECISION COLOR

No subtle color shift will ever escape you again with the brilliance of 16.7 million colors exposed across a resplendent RGB gamut in 1080p. Its depth of 8 bits per pixel will give you up to 256 shades for each individual color.

Along with its anti-reflective finish, it will ensure that no ambient light gets in the way of your eyes and color sharpness that you have never experienced before.

16.7
MILLION COLORS

WIDE ANGLE OF VISION

Its screen features 1500 curvature with optimal viewing up to 1.65m away, allowing the user to have an even more immersive experience, along with amazingly vibrant and accurate details from any position.

Its ultra-wide panoramic viewing angle maintains image clarity and consistent color for all your gaming and entertainment needs.

ERGONOMIC AND ADAPTABLE DESIGN

It provides tilt and swivel so you can easily adjust it to your preferred viewing angle.

Its base includes a tilt point of 5° forward and 15° backward, suitable for any desktop configuration.

Plus, it features a full 90° pivot rotation, for viewing images in portrait orientation.

LOW BLUE LIGHT TECHNOLOGY

Low Blue Light technology consists of a series of filters that largely prevent the radiation emitted by this light spectrum from damaging your eyesight, in addition to preserving almost all of the blue color reproduction on the screen.

Reduces the blue light that emanates from the monitor to protect you from eye fatigue, eye irritation or eye strain.

This allows you to play, work or entertain comfortably for longer periods.

WITHOUT BLUE LIGHT

BLUE LIGHT TECHNOLOGY

NO FLASHING

REDUCES GLARE

AUDIO CONNECTIVITY AND FLEXIBLE IMAGE

Its two integrated speakers with 3W of power will provide you with clear sound without the need to add more cables to your space.

Its wide range of connectivity allows you to easily connect desktops and laptops, making it a true entertainment hub.

It has **HDMI**, **DVI-D** and **Display Port** ports for flexibility with gaming systems.
