ULTRAFAST REFRESH RATE

Experience a low-latency, low flickering and tearing-free gaming experience made easy with **NVIDIA G-SYNC** and **AMD FreeSync**.

Low FPS compensation guarantees that each frame will be drawn with no trouble at all, eliminating unwanted motion blur and overlapping images.

NO SCREEN TEARING

Increase your FPS and reduce latency. Get the maximum FPS and fluid viewing you can through AMD FreeSync technology, no matter which configuration you run.

Whether you're making your way through explosions or drifting through slick turns in the rain, say good-bye to screen tearing/latency and leave your opponents in the softly-rendered dust.

PRECISE AND QUALITY COLORS

No subtle change in color will escape your eye with its luminosity and 16.7m colors presented through a wonderful RGB gamut in 1080p. Its 8-bit depth per pixel will give you a total of 256 shades per each individual color.

Along with its anti-glare finish, this monitor will make sure that no ambient light gets in the way between your eyes and a color definition you've never experienced before.

RGB COLOR SCHEME

16.7 MILLION COLORS

WIDE VIEWING ANGLES

This screen has a 1650R curve with optimal viewing of up to 5'5" which allows a more immersive experience for its users.

Surprisingly vibrant details from virtually any position.

Its viewing ultrawide panoramic viewing angle maintains image clarity and uniform color for all your gaming and entertainment needs.

LOW BLUE LIGHT TECHNOLOGY

Low Blue Light technology consists of a series of filters that circumvent the radiation emitted by this color spectrum to great extent, so that your eyesight is virtually unharmed, and it can still deliver full rich blues on your screen.

Reduces blue light stemming from the monitor to protect you from eye fatigue, irritation and tension.

This will allow you to work on documents, watch movies, or have longer gaming sessions with comfort.

WITHOUT BLUE LIGHT

LOW BLUE LIGHT

FLEXIBLE CONNECTIVITY AND AUDIO

Its two integrated 3W speakers will give you clear sound without having to fill up your gaming area with extra cables or clutter.

The wide variety of connections allows for computers and laptops to be connected to your monitor, turning it into a real media center.

Available ports in this gaming monitor are:

Display Port 1.2 , HDMI 2.0 and a 3.5mm audio out.
