

CHANGE THE GAME

SIGURD

34" 2K SIGURD 4000 GAMING MONITOR

FULL PLAY TO YOUR SKILLS

The 165Hz high refresh rate enables you to aim at the target more quickly, eliminates picture lagging, breaks through the FPS bottleneck, releases the potential power of the graphics card, and enables you to experience a real-time smooth picture, locks down the target precisely, and get the upper hand in the battle.

THOROUGH VIEW OF DETAILS

The advanced HDR processing chip offers high brightness, a large dynamic range and a broader color gamut to display more color and brightness information closer to the colorful real world.

LOSE YOURSELF IN THE GAME

Designed for immersive gaming, The **Sigurd 34" 2K 4000 Gaming Monitor** features 3000:1 sharp contrast ratio, 121% sRGB, and HDR Ready 350 cd/m2 brightness. The integrally molded flexible display with a revolutionary 1500R curvature is more pleasing to the human eye, with VA panel for a better field of view than 1800R monitors. Provides a stronger visual environment and gives you immersive panoramic viewing experiences.

PANEL TYPE	VA	TN
RESPONSE TIME	1ms	<1ms
COLOR	Good	Poor
VIEWING ANGLE	178/178	170/160
CONTRAST	3000:1	1000:1

ABSOLUTE COLOR PRESENTATION 2K RESOLUTION

The 8-bit VA panel has 121% sRGB, and covers about 85% of NTSC's color gamut. Its rich colors enable the display to show more lifelike pictures.

LOW BLUE LIGHT FOR EASY VIEWING

Blue Light Shift reduces your monitor's blue light to protect you from eye fatigue, irritation and strains. This enables you to work on your documents, watch movies, or play games more comfortably for extended periods. DC dimming reduces screen flickering, and keeps the picture clear and smooth.

The Blue Light filtering is added to realize the filtering of high-energy short-wave blue light, ideal for players working or playing for long periods.
