LIVE FAST, PLAY FAST

VS

The Odraz 27" FHD Flat Gaming Monitor is equipped with a 165hz refresh rate which benefits the most in fast-paced game genres such as FPS, RTS, and MOBAs.

Easily achieve the fastest response time possible of 1ms response time and the power of your rig. Set up with a VA panel to go from the darkest black with our contrast ratio of 3000:1 to the brightest colors in half the time it takes you to blink.

PANEL TYPE	VA	TN
RESPONSE TIME	1ms	<1ms
COLOR	Good	Poor
VIEWING ANGLE	178/178	170/160
CONTRAST	3000:1	1000:1

MAXIMUM EYECARE

Low Blue Light mode combined with YEYIAN's FlickerLess technology with vibrant and accurate colors at every angle prevents eye strain issues from a prolonged screen use.

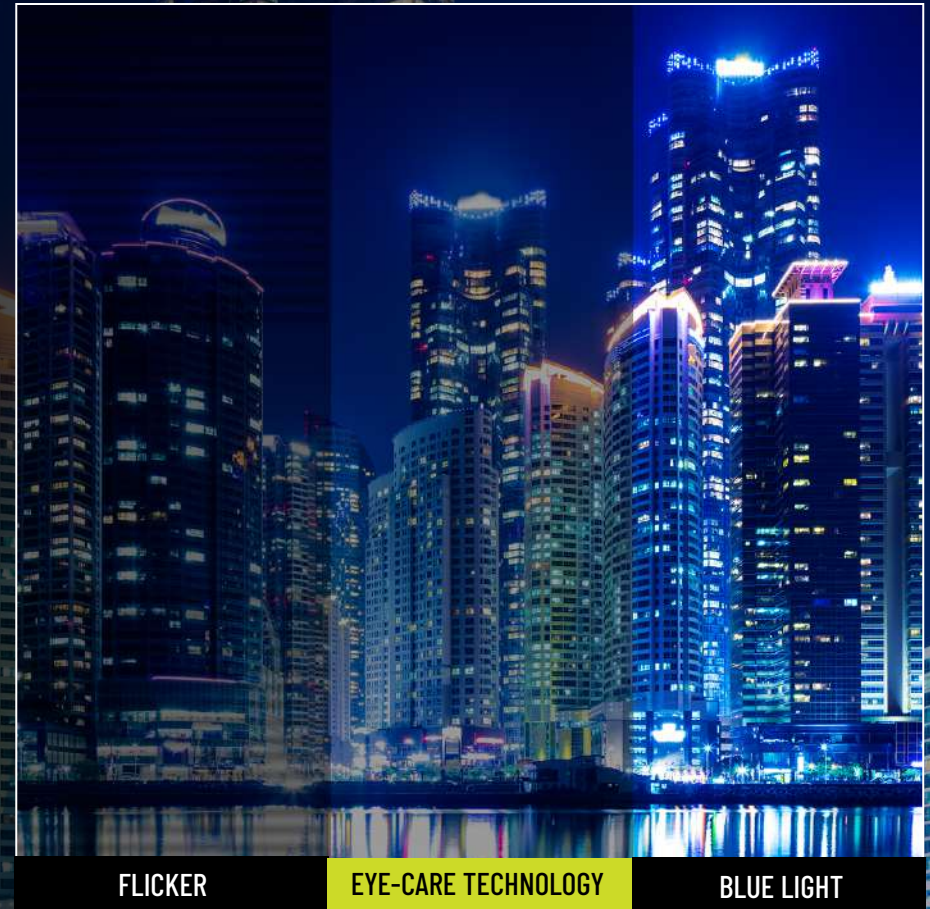

No more tearing, this monitor has the capability to sync directly with your GPU for better refresh rates, as well as flicker free and low blue light-technology, so you can enjoy a longer gaming experience that is easy on the eyes.
